

SMART GPRS 2.0

Quick Installation Guide

This guide describes how to install the SMART GPRS & APP. Including APP download, register an account, create PV plant. In order to prevent improper operation before use, please carefully read this manual.

Step 1 : Use a screwdriver to open the Smart GPRS.

Step 2 :

- \succ Slide cover to the left to unlock and open;
- \succ Insert the card into the slot
- (Make sure the core face is down);
- \succ Close the cover;
- Slide cover to the right side to
- close.

Note:

* Please check from the side of the slot to make sure the SIM Card core has sufficient contact with the card slot.

SMART GPRS 2.0

* Please make sure the cover has been slided properly, otherwise the signal might be reduced.

Step 3 :

Insert the Smart GPRS board into the shell.

Step 4 :

Insert the SMART GPRS into the inverter Wifi/GPRS interface and tighten the dongle.

Note:

* The device must be away from strong

magnetic fields generated by large electrical equipment, such as microwaves stoves, refrigerators, wireless phones, photovoltaic panels and metal walls to ensure communication quality. Communication quality might be affected by lightning.
